

TEPHI GRAND ROUNDS SEMINAR SERIES

# Vaccines of Global Health Importance:

## What's New or on the Horizon

**Catherine L. Troisi, MS, PhD**  
*Associate Professor*  
*UTHealth Houston School*  
*of Public Health*

### July 10, 2024

4-5 PM CT, VIRTUAL

Vaccines represent a major public health achievement saving over 154 million lives during the past 50 years. We will discuss new vaccines that have been licensed in the US or available globally in the past few years as well as promising vaccines in phase 3 trials. Also reviewed will be a wish list for new vaccines.

Up to 1 CPH Recertification Credit may be earned at this event.
