## **About TEPHI**

The Texas Epidemic Public Health Institute (TEPHI) works to help communities across Texas stay strong and ready for infectious disease outbreaks.

We were created in 2021 and are based at UTHHealth Houston.

TEPHI partners with local leaders and health experts to:

- Train the public health workforce through a variety of free courses
- Spot disease outbreaks early through wastewater testing
- Share clear, helpful health info with the public on infectious diseases
- Build a strong network of trained public health responders

TEPHI's goal is to keep Texans healthy and support our state's economy by getting ahead of outbreaks.

## **About The University of Texas at El Paso**

The University of Texas at El Paso is America's leading Hispanic-serving university. Located at the westernmost tip of Texas, where three states and two countries converge along the Rio Grande, 84% of our 25,000 students are Hispanic, and more than half are the first in their families to go to college. UTEP offers 171 bachelor's, master's and doctoral degree programs at the only open-access, top-tier research university in America.
